ROME: Dear Fornet German player: Obviously you know nothing about my sexual exploits (???) which are legendary (what). After all, I conquered half of Europe, and you didn't. How do you suppose I did this incredible thing? Well, from bordello to harem, from seraglio to whore-house, from...but, well, I hate to go on and make you feel so inferior. Somebody may yet be cherry, but not I, O Foolish one; Maybe it has something to do with a measurement of a mere four millimeters, (That's an 1/8 inch per millimeter). Have you tried stretching exercises? Or running it through a wringer/?.

JAMUL-<sup>t</sup> it is not so much the length, but the way it is done. A rubber balloon may be stretched to six feet, but it is still a rubber balloon. A wise man once stated, "When bragging about one's sexual capacity, one should not look in a mirror, for glass has that tendency to make things seem much larger than they really are.

GENEVA: The International Commission for the proper conduct of Diplomacy today issued a statement severely critical of the French Government.

"Whereas the object of Diplomacy is the control of Europe, whereas the adoption of an inferior object biases the conduct of the game, whereas such an inferior object--the equal division of Europe--has been adopted and proclaimed by the frog Government. Therefore ~~for~~ the Frog Government deserves extreme censure if it proceeds along this thoroughly nausty course.

PARIS: Sigh! the enemies of France are so ineffectual in the conduct of thier part of the war that they are left with nothing better to do than to utter obscenities, and to mouth disparaging opinions about the physical attributes of the leaders of France. This writer concedes that such is in the tradition of wargaming & in particular of Diplomacy; But please Gentlemen-of-the-opposition at least make some concessions to originality in language, to maintaining interest in the "Mud-slinging". As France is currently winning the War, her leaders will refrain from indulging in such nefarious activities. Should her fortunes change for the worse I am confident that Paris will ring with an ingeniously constructed set of "tasteful comments" about the peculiar attributes of the opposition.

ANALYST:--A highly placed source in the Italian Government who was present at the docking of the H.M.S. Esperant here was quoted as saying "What kind of barbarous treatment would you expect from a people who not too many years ago were still painting their body's blue?" The State of Miss Loren's health is a matter of grave concern to a great many government officials. Another spokesman described Sophia's physical condition as... "A lamentable misuse of one of the World's natural wonders." As Miss Loren's stretcher was wheeled off the dock toward a well-deserved rest in Cortina, she whimpered a barely audible, "A Stallion. Mama Mia, he was a stallion."

PARIS: Miss Cardinal's and Miss Loren's appointments only point out the idiocy of the present Italian Government. Our Government has strained for years to keep the National Treasures home(Mama Mia what Tresures). Thusly accomplishing two purposes. 1).The fact that we can enjoy these treasures (Like Twiggy) and 2).We avoid the present Italian plight of all its neighbors trying to get to the source of these treasures(Yes, Yes.)

Chula Vista: Sorry about Twiggy, should have been Bardot.

VIENNA-Russia and Turkey are doomed. Shows you what happens to people who do it to Chickens.

ROME: Pluck?

ROME: See, France? See what happens when you make puppets? See what happens when you forget to pull the strings? See? See? Ha! Her Holiness has also laid your Country under interdict, and you will not be able to build any units except of Church porches. And they're all closed.

CONSTANTINOPLE: Her Holiness the Pope has been crowned Empress of the East, assuming the title in 1906. In Her first speech from the throne, Her Holy Majesty referred to Rome and Constantinople, saying, "Two down and one to go". The meaning, of course is obvious.

London (Kill): Kill, without gentleness. Anybody who gets in the way. I want to see you in Paris, Berlin, Moscow, Vienna, Rome and Istanbul by Fall. Go to it. Dismissed. That was the text of HRH's speech to Parliament on the 6th anniversary of the beginning of Hostilities.

El Fongo,I credited you with Holland,but it seems the Germany now occupies that position,so what the hell you didn't want an extra unit anyway.

TURKEY(Daily) No Build recieved(will be one short).

The German and Turkish orders are to hold..If anybody would like to submit moves for these two Country's just in case they persist in holding,I will then accept them(Are you listening,Tom and Jimmy).

ST.PETERSBURG: The Czar is somewhat startled at the English overture of Peace,"Why didn't you tell us sooner,"?He wondered. " The Move into Norway was pure self-Defense. If the English would consent to withdraw from the Barents Sea,we would gladly return Norway,Russia has no imperialistic designs in Scandinavia.

NOTE-Conrad Von Metzke has suggested a new type of Diplomacy game,one that will be more towards a Press release game than an actual playing game,I have told him that I would try such a game,but a fee of \$5.00 would have to be Charged..The idea would be to let you write as many press releases you want. Any sugges...JOHN McCallum....Do I have to take over another game to get you to play....???????
